Lecture 2 Quiz

1. A functional emotional developmental milestone includes all of the following, EXCEPT:

- a. Core capacities that orchestrate the entire mental team
- b. The central role of affect which works as the "team leader"
- c. Looking at each developmental component (i.e. motor, cognitive, language, social) separately rather than looking at overall development

Lecture 2 Quiz

2. Affect is important for development because...

- a. Children need affect to take a purposeful interest in the world. The human brain depends on experience for most of it's brain development.
- b. Affect links sensory perception to motor behavior. This is called Sensory-Affect-Motor pattern (SAM).
- c. All of the above

Lecture 2 Quiz

3. Without looking back, name the 6 Stages of Functional Emotional Development

Stage 1 _____

Stage 2 _____

Stage 3 _____

Stage 4 _____

Stage 5 _____

Stage 6 _____

www.stanleygreenspan.com S.I. Greenspan, M.D. 4

Lecture 2 Quiz

4. Match each Stage to its functional emotional milestones:

Stage 1 _____ a. Child goes beyond simply enjoying caregiver and becomes a two way communicator, completing 5-10 circles of communication at a time

Stage 2 _____ b. Child thinks at a symbolic level and connects ideas, and can reason why he feels certain ways

Stage 3 _____ c. Child acquires the ability to regulate herself and is able to be calm, alert, and have shared attention

Stage 4 _____ d. Child broadens emotional range and takes interest in the human world, and falls in love with the caregiver

Stage 5 _____ e. Child begins to use symbols in pretend play and has meaningful use of language

Stage 6 _____ f. Emergence of sense of self occurs, child forms ability to create a symbolic world, and has continuous flow of 50-60 circles of communication at a time

Quiz answers begin on the next slide...
